

MEDIA RELEASE

For Immediate Release

NEW STAMPING APPLICATION PROCESS THROUGH THE INTRODUCTION OF DIGITAL FRANKING SYSTEM 2.0

Please be informed that the Inland Revenue Board of Malaysia (IRBM) will implement a new process of stamping applications through the introduction of the **Digital Franking System 2.0 (DFS 2.0)** to replace DFS 1.0 which has been in use since 2011. The introduction of this new process is in line with current technological developments and is part of IRBM's continuous effort in improving its service delivery to customers, in particular, the stamp duty payers.

Through this new process, stamp duty payers or agents no longer need to fill the PDS 1 Form manually, the form will instead be made available online for ease of furnishing by the users.

Three methods will be provided for application of the stamping via DFS 2.0:

- i. Computer Applications (Windows)
- ii. Mobile Applications (Mobile Apps)
- iii. Self-Service Counter at IRBM offices

For Computer and Mobile Applications, stamp duty payers or agents are required to download the apps first either through Play Store for Android or Apple Store for iOS.

The completed online PDS 1 Form will be processed and a digital output of the Quick Response Code (QR Code) will be generated by the system. This QR Code can then be printed and handed together with the instrument to the duty officer at the counter to be reviewed and to determine the amount of stamp duty payable.

This new process will be implemented in stages beginning at the IRBM Stamp Duty Counter located at Cyberjaya Satellite Office on 29 June 2018 before being extended to the IRBM Stamp Offices in the Klang Valley from July 30, 2018 and all IRBM Stamp Duty Offices nationwide on 30 August 2018.

We believe that this high-tech DFS 2.0 is capable of curbing stamp duty falsification, avoiding errors during manual entry of data on docket, facilitating the process of data entry and acts as an effective mode of checking the authenticity of stamps.

Digital Franking System 2.0

Digital Franking System (DFS) was implemented at Duty Stamp Office since year 2011 to offer “*Digital Stamp*”, one of the stamping types for Stamp Duty. DFS 1.0 has been enhanced and upgraded to DFS 2.0 in which includes document/representative data entry process.

3 Methods of Document Data Entry are Available:

PC App (Windows)

1. Download PC App (visit LHDNM web at www.hasil.gov.my -> EZHASIL -> DFS).

2. Register (for first time log in).
3. Data Entry (documents) - it can be worked in offline environment.
4. Generate and print QR Code (PDF format is available).
5. Bring along documents and printed QR Code to *Stamp Duty Office*.
6. Get Queue Number
7. Submit documents and printed QR code to LHDNM Officer at counter.
8. Assessment process by LHDNM Officer at counter.
9. Made payment at cashier counter.
10. Get “*Digital Stamp*”.

Mobile App

1. Download Mobile App Digital Franking
 - Android: Play Store
 - iOS: Apple Store
 - Keywords “Digital Franking”
2. Register (for first time log in)
3. Data Entry (documents) - it can be worked in offline environment.
4. Generate QR Code (Display QR Code at smartphone screen)
5. Bring along documents and QR Code to *Stamp Duty Office*.
6. Get Queue Number
7. Submit documents and QR code to LHDNM Officer at counter.
8. Assessment process by LHDNM Officer at counter.
9. Made payment at cashier counter.
10. Get “*Digital Stamp*”.

Self Service Counter

1. Bring along documents to *Stamp Duty Office*.
2. Data Entry (documents) via Self Service Counter (at the designated area in *Stamp Duty Office*).
