Synopsis:

This webinar aims to provide the participants with exposure to Legaltech which has never been as relevant as it is right now. The on-going Covid-19 pandemic has forced the lawyers to question our practice and that has led us to a virtual platform that shows us the future. Join us as we hear the views and advice of experts from Legaltech, Litigation, Product Development as well as Industrial, Manufacturing and Technology as we explore the digitalisation of Malaysia's legal industry.

Topics:

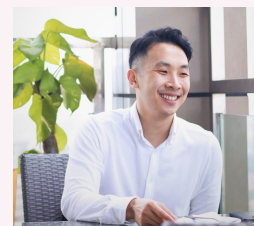

- Moves to digitalise the Legal Profession have begun but are we still left behind in Malaysia?
- Can the Conventional and Traditional Legal Practice as we know it survive in the digital age or has it left us with no choice but to adapt?
